

Veritas Backup Exec™

Licensing Cheat Sheet

Simple, Secure and Unified

BE Simple Overview

Backup Exec 22 licensing has been simplified into a single license that includes all Backup Exec features and functionality called BE Simple.

BE Simple is a subscription licensing program.

BE Simple Instance Metering

Instance Metering allows customers to purchase licenses based on the number of protected data sources.

An instance is defined as a single compute instance, such as a VM, a physical host, 10 M365 users, or an additional Backup Exec server on the same site.

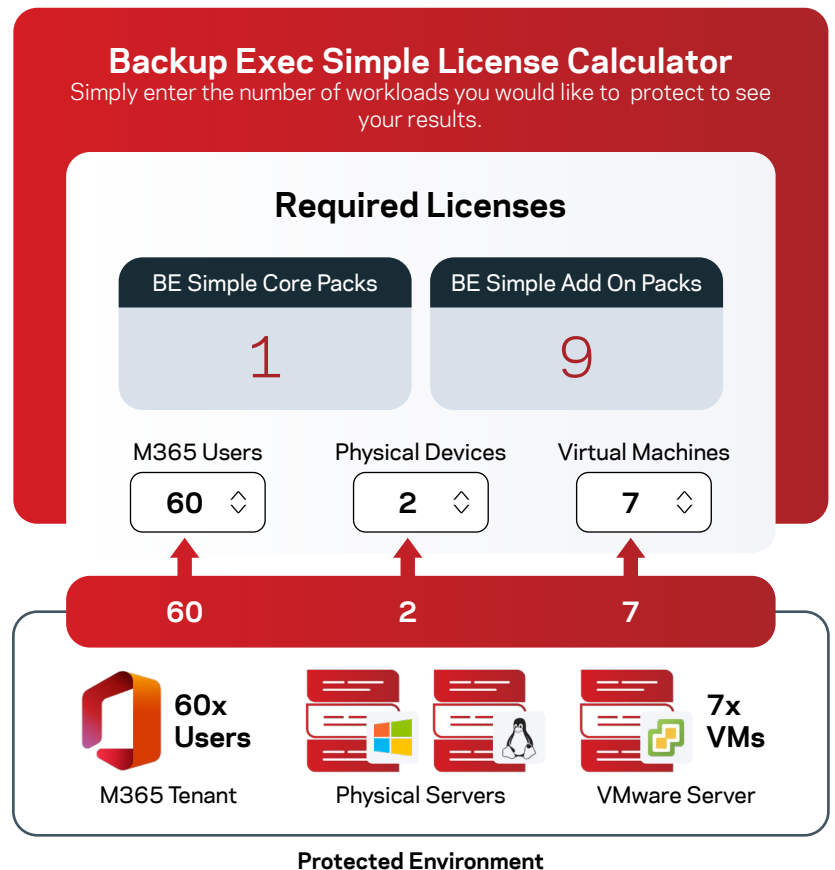

BE Simple Core Pack and Add On Packs

A Core Pack license includes the right to install a Backup Server that can back up five data sources (instances) and 10 Microsoft 365 users (bonus).

An Add-On Pack includes the right to backup one data source (instance) or 10 Microsoft 365 users.

For more information, access the [BE Licensing Guide](#) and try the [BE Simple License Calculator](#).
